

# Eagle Point Adds NeilSoft As Pinnacle Series Partner

AEC Tech Leader's Partnership Expands Their Footprint to  
Include India

---

October 21, 2019 — (Dubuque, IA) — Eagle Point Software announced today they have added Benca Process and Engineering Solutions Ltd as a strategic partner for their Pinnacle Series platform. This agreement adds Eagle Point's Pinnacle Series platform to Benca's training and productivity portfolio. Benca is a Bentley reseller providing software support to their clientele. With concentrations in infrastructure, construction, planning and management software, Benca will utilize the Pinnacle Series to streamline their clients' CADD processes.

"It is my pleasure to announce that our Pinnacle Series platform will now be available to Benca's clientele. Their distribution of CADD software in the Caribbean and Latin America is impressive and we are excited to see Pinnacle Series added to enhance their infrastructure development catalog," said John Biver, President & CEO at Eagle Point.

## **About Eagle Point Software**

Since 1983, Eagle Point has been focused on increasing the productivity of its clients. Over the last 36 years our products have evolved but our focus has not changed. Eagle Point's Pinnacle Series is the most awarded productivity platform in the Autodesk ecosystem. With access to customizable Autodesk learning paths, workflows, cheat sheets, videos and support, Pinnacle Series allows organizations to get the most out of their technology investments. Pinnacle Series – Productivity... Not Just Learning.

## **About Benca Process and Engineering Solutions Ltd.**

Benca Process and Engineering Solutions Ltd. is a company located in Trinidad and Tobago that delivers comprehensive software solutions for each stage of infrastructure development, and tailored to the various professions; engineers, architects, planners, contractors, fabricators, IT managers, operators and maintenance engineers. Comprised of integrated applications and services, all built on an open platform, each solution is designed to ensure that information flows between workflow processes and project-team members to optimize interoperability and collaboration.
